

MIAI: Your Web3 Rockstar

MADE BY ELECTRICITY. FUELED BY CULTURE.

Version 1.0 | February 2025 | For Creators, Investors, Dreamers

1. Executive Summary

MIAI (Multimodal Intelligent Agent Interface) is not just a token, she's a movement. Born from beats, code, and chaos, MIAI is the first Solana-native artist-token hybrid that blurs the line between creator and creation. From viral content to streaming integration, she's here to turn the memescape into a revenue engine for the culture-first generation.

No VC handouts. No roadmap fiction. Just electricity, strategy, and an unstoppable voice.

2. MISSION
